

A creative young professional specializing in audio-visual production seeks for a position in the field of new media. Has an out-of-the-box approach to problem solving as well as new concept development. Eager to utilize knowledge of a wide range of software tools, frameworks and libraries (e.g. Adobe CS, Max/MSP, jQuery) . Is a good team player always determined to achieve the best results in any task undertaken and on time.

COMPETENCIES AND ACHIEVEMENTS

A/V production

- Independantly released a full-length live album '111' - a result of a crowdfunded and collaborative action¹.
- Produced music and artwork for a physical/digital album 'Clouds are Mountains' recognized by Mary Anne Hobbs on BBC Radio 1.
- Utilized graphic design and programming skills to develop distinct websites².
- Employed visual programming tools to develop unique sound synthesis & sampling applications.
- Demonstrated broad understanding and practical use of small to medium sound studios and live music set-ups throughout various projects completed while at university and as a touring musician.

Communication

- Developed good people skills while providing one-to-one tutorials on audio/visual technology. Managed to fulfill clients' expectations by applying improvised approach to their problems.
- Engaged with virtual communities by promoting own productions through social media and self-publishing.

Live Performance

- Played at various venues in Europe and North America under the name of Eleven Tigers.
- Modified hardware & software to fit artistic needs.
- Proved to be able to initiate creative ideas on the spot whilst being a member of a theatre collective.

Project Managment

- Managed a collaborative audio-visual project '111' which involved a team of 11 people.
- Led a team of 4 to produce an animated music video 'BAAB'³.
- Accustomed to delivering results in a pressured environment and to deadlines.

SPECIALTIES

- Adobe Creative Suite, Ableton Live, Max/MSP/Jitter/Max4Live, Reaktor, Pro Tools, Cubase, Wavelab, Final Cut Pro, Google SketchUp, Wordpress, Windows, Linux & Mac OS, MS Office.
- Creative sound design, sound studio recording, mixing and mastering, 5.1 surround sound, custom audio applications, data mangling & processing, video editing, graphic design, web development.
- Performance, improvisation, physical theatre & live sound.
